

Memory Game

Ecolabels

HOW TO PLAY

- ✓ Print and cut all the cards
- ✓ Place all the cards with pictures on one side of the table, and all the tags on the other, face down
- ✓ One person should play the judge and check that the players matches the ecolabels and the product categories correctly
- ✓ The game can be played by individual players or in teams

First round

- ✓ Each player/team uncovers one ecolabel and one tag at the time and says if they match or not. If the answer is correct, the player/team gets one point, puts the cards aside (face up) and plays again. If there is no match, player/team puts the two cards back.
- ✓ Every time there is a match, the ecolabel and the tag are put aside in a dedicated space of the table, visible to all players

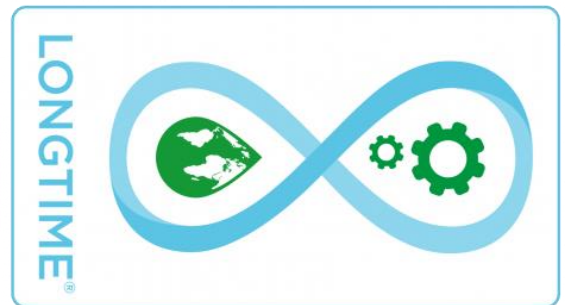

Second round

When all the ecolables have been uncovered and put aside, the game continues with the remaining tags.

- ✓ Each players/team uncovers one tag and places it under the corresponding ecolabel. If the answer is correct, the player/team gets one point and plays again.

When all the cards have been matched, the player/team with the highest number of matches wins

Bra Miljöval
