Aragon Basic Data (ABD) is a statistical product that compiles a selection of the most demanded data about the social and economic reality of the Autonomous Community of Aragon.

Different versions are available:

- Updated ABD (only in Spanish): it periodically incorporates updates of part of its contents whenever they come available. Each page includes the date of the latest update.
- **Annual ABD** (Spanish and English versions): annual still photo; we must take into account that:
 - The year that appears in the publication's title is the corresponding edition's.
 - Every depicted table or subject includes a time reference corresponding to the date in which data were recorded by the reporting entity or when the event to be measured took place.
 - The collected data are the latest available ones at edition date.
- Accessible Annual ABD : simplified version in order to minimise the difficulties that might result into an access barrier.
